

Final Project Group Formation

Name: _____

Entry/Exit tickets will be graded for intellectual engagement only, not correctness.

Recall for your final project, you'll design an experiment (no data collection) and convince an audience of stakeholders that your research question (RQ), experimental design, and proposed analysis are sound.

You will be completing and presenting these in a team of four.

Which of the following group formats do you want for the final projects? *(Select one)*

- ☐ Keep island lab groups
- ☐ New random assignment of groups

How would you feel about the option of picking your own groups? I tend to avoid this option.

- ☐ No, I want to keep our island groups
- ☐ No, that is stressful for me
- ☐ Yes, I'd love to pick who I work with
